Joseph Connolly
MEMORANDUM FOR: Director, Defense Intelligence Agency

SUBJECT: Dissemination of North American Air
Defense Command Space Intelligence
Bulletins

REFERENCE: Your letter to Director, CIA of 19 Sep 62

1. I am very appreciative of the steps that you have taken to make NORAD intelligence information available to CIA and willingness to provide further assistance as you describe in your recent letter. We are now receiving all the publications desired except the North American Air Defense Command Space Intelligence Bulletins (NORSIBs). The NORSIBs contain useful information which would benefit the CIA analysis of space intelligence. Their dissemination to CIA would enhance the national space intelligence effort by developing better mutual understanding between the specialists working in the field.

2. I am sure that you will agree with me that it is advisable to encourage the appropriate dissemination and exchange of information between NORAD and CIA. The NORSIBs should be sent to CIA, attention: Chief, Space Division, Office of Scientific Intelligence.

3. Your cooperation in this matter will be appreciated.

MEMORANDUM FOR THE DIRECTOR, CENTRAL INTELLIGENCE AGENCY

SUBJECT: Effectiveness of Present Arrangements Concerning North American Air Defense Command (NORAD) Support of CIA

REF: a. Ltr from Hon. William C. Foster to Hon. John A. McCone of August 17, 1962

b. DIA msg 79924 of 5 September 1962

1. In reference a., referred to DIA by the Secretary of Defense, Mr. Foster indicates that present arrangements for utilization of NORAD's capabilities in support of CIA may not be entirely satisfactory.
2. Under existing arrangements NORAD's dissemination of SPADATS information is in response to a DIA collection requirement which describes the nature of information to be furnished and calls for direct dissemination of raw information to CIA.
3. Examination discloses that on occasion in the past CIA has not received pertinent NORAD SPADATS raw information in a timely enough manner. Accordingly, in reference b., I have recently emphasized to NORAD the importance of ensuring responsive and direct transmission to CIA of SPADATS raw information.
4. As a result of this emphasis improvement in future response by NORAD in support of CIA can be expected. I have instructed DIA's Director of Acquisition and Chief, Current Intelligence and Indications Center to follow with your people to insure that your Agency's needs are fully and promptly satisfied.
5. I would appreciate it very much if, in the future, you would inform me should there be any area in which you feel there is a need for improvement in DOD support to CIA intelligence requirements.

TO: Chief, Space Division
Office of Scientific Intelligence
Central Intelligence Agency
Washington 25, D. C.

1. Reference your MEMORANDUM FOR: Brigadier General Harris B. Hull, J-2, NORAD, subject as above, dated 26 February 1962.

2. Your request for raw information in the form of orbital elements, radar cross sections, rate of tumbling, etc., is being furnished through the media of reports by the NORAD Space Detection and Tracking System (SPADATS). This intelligence is itemized in the DIA Specific Intelligence Collection Requirement (SICR) D-ACQ-01799 dated 11 July 1962 which replaces D-JCS-00861 dated 10 May 1962. CIA is an addressee for all reports emanating therefrom.

3. It is emphasized that NORSIB is produced for CINCNORAD and forwarded to NORAD commanders as a matter of information. Review of NORSIBs is accomplished by DIA and pertinent portions are included in DIA assessments which are furnished to CIA on an all-source basis. Through SPADATS reporting in accordance with above referenced SICR, and distribution of information from NORSIBs in other DIA documents received by CIA, it is believed that CIA is presently receiving all information requested by your referenced letter.
